

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	31 January 2025
Team ID	-
Project Name	Strategic Product Placement Analysis
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming was conducted to identify the most effective solution for the Strategic Product Placement Analysis project. Various ideas such as analyzing product placement data, preprocessing the dataset, creating interactive Tableau dashboards, comparing product performance, and generating business recommendations were discussed. Based on impact and feasibility, developing an interactive Tableau dashboard was selected as the best solution because it provides clear visual insights and supports data-driven business decisions.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

 10 minutes to prepare
 1 hour to collaborate
 2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

 10 minutes

A

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

C

Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

 5 minutes

PROBLEM

How might we [your problem statement]?

**Key rules of brainstorming**

To run a smooth and productive session

 Stay in topic.

 Encourage wild ideas.

 Defer judgment.

 Listen to others.

 Go for volume.

 If possible, be visual.

- Studied the domain of Strategic Product Placement Analysis.
- Identified the problem in analyzing the effectiveness of product placements.
- Selected the problem statement and defined the project objectives.

Step-2: Brainstorm, Idea Listing and Grouping

Brainstorm

Write down any ideas that come to mind that address your problem statement.

30 minutes

Group Ideas

Take turns sharing your ideas while clustering similar or related ones as you go. At the end of rounds, give each cluster a representative idea. If a cluster is bigger than one sticky note, try to break it up into smaller sub-groups.

Ideas generated:

Data collection and preprocessing.

Product placement analysis.

Dashboard for visualization.

Report generation.

Step-3: Idea Prioritization

- After evaluating the ideas based on feasibility, accuracy, and project requirements, the following features were prioritized.
- Product placement analysis.
- Interactive dashboard.
- Report generation.
