Project Name	Strategic Product Placement Analysis
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem–Solution Fit for the Strategic Product Placement Analysis project identifies the challenges faced by retailers and customers due to poor product placement. The proposed solution uses sales data and customer purchasing patterns to recommend optimal product placement, improving customer satisfaction and increasing sales.

Purpose:

- Identify product placement problems in retail stores.
- Analyze customer buying behavior using sales data.
- Recommend optimal product placement strategies.
- Improve customer shopping experience.
- Increase sales and support better business decisions.

Template:

Define CS, fit into CC	1. CUSTOMER SEGMENT(S) Who is your customer? I.e. working parents of 0-5 y.o. kids	CS	Explore AS, differentiate
	6. CUSTOMER CONSTRAINTS What constraints prevent your customers from taking action or limit their choices of solutions? I.e. spending power, budget, no cash, network connection, available devices.		
Focus on J&P, tap into BE, understand RC	2. JOBS-TO-BE-DONE / PROBLEMS Which jobs-to-be-done (or problems) do you address for your customers? There could be more than one; explore different sides.		Focus on J&P, tap into BE, understand RC
	9. PROBLEM ROOT CAUSE What is the real reason that this problem exists? What is the back story behind the need to do this job? I.e. customers have to do it because of the change in regulations.		
Identify strong TR & EM	3. TRIGGERS What triggers customers to act? I.e. seeing their neighbour installing solar panels, reading about a more efficient solution in the news.		Extract online & offline CH of BE
	4. EMOTIONS: BEFORE / AFTER How do customers feel when they face a problem or a job and afterwards? I.e. lost, insecure > confident, in control - use it in your communication strategy & design.		
10. YOUR SOLUTION If you are working on an existing business, write down your current solution first, fill in the canvas, and check how much it fits reality. If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour.		8. CHANNELS of BEHAVIOUR 8.1 ONLINE What kind of actions do customers take online? Extract online channels from #7 I.e. directly related: find the right solar panel installer, calculate usage and benefits; indirectly associated: customers spend free time on volunteering work (i.e. Greenpeace)	
8.2 OFFLINE What kind of actions do customers take offline? Extract offline channels from #7 and use them for customer development.
