

Project Design Phase-II

Data Flow Diagram & User Stories

Date	31 January 2025
Team ID	--
Project Name	Strategic Product Placement Analysis
Maximum Marks	4 Marks

Data Flow Diagrams:

The Data Flow Diagram (DFD) illustrates how data moves through the Strategic Product Placement Analysis system. It shows the flow of information from the user to the system, where product, sales, and customer data are collected, validated, and processed. The system analyzes the data to identify the best product placement strategies and generates recommendations. Finally, the results are displayed as dashboards and reports to help businesses make informed decisions and improve product visibility and sales.

Example: [\(Simplified\)](#)

1. User uploads product, sales, and customer data into the system.
2. The system validates the data for accuracy and consistency and stores it in the database.
3. The data is preprocessed to remove errors, handle missing values, and integrate different data sources.
4. The analysis engine evaluates the data using sales trends, customer behavior, and store/location factors to determine the best product placement strategies.
5. The system generates optimal product placement recommendations and displays the results through dashboards and reports to help businesses make data-driven decisions.

Example: Strategic Product Placement Analysis

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
		USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
		USN-3	As a user, I can register for the application through Facebook	I can register & access the dashboard with Facebook Login	Low	Sprint-2
		USN-4	As a user, I can register for the application through Gmail	Data is uploaded successfully	Medium	Sprint-1
	Login	USN-5	As a user, I can log into the application by entering email & password	Charts are displayed correctly	High	Sprint-1
	Dashboard	USN-6	As a user, I can view charts and graphs of product performance.	Dashboard displays analysis correctly.	High	Sprint-1
Customer (Web user)	Product analysis	USN-7	As a web user, I can search and analyze product placement trends.	Product analysis results are displayed correctly.	High	Sprint-2
Customer Care Executive	Customer Support	USN-8	As a customer executive, I can respond to customer queries and complaints.	Customer queries are resolved successfully.	High	Sprint-3
Administrator	User Management	USN-9	As an administrator, I can manage users and system settings.	Users are added, updated, or removed successfully.	High	Sprint-3
